OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

Notification dated 17th November 1952.

(HEALTH OF LIVESTOCK DURING OCTOBER 1952).

In their order of severity, outbreaks of Rinderpest, Blackquarter, Haemorrhagic-septicæmia, Anthrax, Ranthket, Gastro-enteritis, Sheep-pox, Contagious-goat, Pleuropneumonia and Foot and Mouth were encountered in the State during October 1952. Altogether 157 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 167 villages during the previous month. The number of outbreaks was highest in Mandya, Bangalore and Shimoga districts, while Chitaldrug, Chikmagalur and Hassan districts were least affected. These diseases accounted for 556 attacks of which 427 succumbed. The departmental staff conducted 6,058 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinator intervention other prophylactic measures were adopted against Foot and Mouth disease.

Three outbreaks of Rinderpest were registered in Bagepalli Taluk accounting for 11 attacks among cattle, of which 6 succumbed. Prompt measures of control were undertaken by the department to check its spread and 504 cattle were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 109 villages accounting for 28 deaths as against 118 villages accounting for 41 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 8,503 animals as against 7,487 animals during the previous month.

Due to widespread rains all over the State during the month, scarcity of drinking water to the livestock was removed. Fodder continued to be supplied to all the depots opened in the affected areas from Mandya District. A large number of cattle were grazing in the several forests of Mysore, Chikmagalur and Shimoga districts. At the close of the month, the fodder position improved and there is less need for anxiety.
